

Bird Food Recipe

2 cups of Suet (Atora or other brand)

4 cups of Plain Flour

To this basic mixture you can add:

Chopped apples

Raisens

Chopped dried fruit

Cheese

Biscuits

Peanut Butter

Mix the ingredients together then start adding water until you have a squidgy ball of mixture!

This can then be smeared over tree trunks or logs, or hung up in a ball on feeders.

If you don't have bird feeders, you can use yogurt pots! Thread some string through the bottom of the pot and stuff the pot full of the mixture and hang from branches!
